SAFETY BULLETIN

DON'T TAMPER WITH SAFETY INFORMATION

Information posted in lunchrooms, maintenance shops, and first aid rooms (such as Canada Labour Code, MSDS sheets for products used and shipped, safety protocols, safety procedures, etc.) is posted by the employer for everyone's benefit and also by Labour Code law.

These items are **NOT** to be tampered with, defaced or removed!

THIS IS TAMPERING WITH SAFETY EQUIPMENT.

Everyone loses when this happens. Discipline for tampering with Safety Equipment is quite clear.

In solidarity
ILWU Local 500 Safety Committee
